

HOW TO MAKE A HOMESCHOOL BLOCK SCHEDULE

Pick Your Subjects

You can use the basic subjects or change up the schedule each semester to cover more electives.

Decide When You Will Learn

Plan a time to complete the school block that is best for your homeschoolers. Morning, afternoon, or even nights, the choice is yours!

Don't Forget Breaks

These don't have to be days that aren't educational, but it is helpful to try something different.

Make Changes As Needed

Maybe math on Monday is a bad idea. Don't be afraid to erase and make changes to create the best schedule for your homeschoolers.
