

# Homemade Playdough Recipe

## Ingredients:

- 2 teaspoons of cream of tartar
- 1 cup all-purpose flour
- 1/3 cup of salt
- 1 tablespoon vegetable oil
- 1 cup of water
- Food coloring (or acrylic paint if you have kids that won't eat it!)

Ready for the easiest play dough ever? Okay, here we go.

1. Mix all the ingredients in a saucepan. (See told ya easy!)
2. Cook on med/low heat stirring constantly.
3. Keep stirring the mixture until it thickens and collects around the spoon.
4. Remove the dough and place it on a plate to cool. (It might be sticky and that is okay).
5. Once cooled enough to touch, start to play and mix it thoroughly. Keep kneading it and working with it. It will get there.
